Minhyeong Lee

June 26, 2001
minhyeong3463@inha.edu

Education

• Pohang University of Science and Technology(POSTECH)
March 2027 − Present
Pohang, Korea
Master's Degree expected in Artificial Intelligence
◦ Data Intelligence Laboratory, advised by prof. Hwanjo Yu

• Inha University
March 2021 − Feb 2027
Incheon, Korea
Bachelor's Degree expected in Smart Mobility Engineering
◦ Overall GPA: *4.28 / 4.50,* Major GPA: *4.28 / 4.50*
◦ Republic of Korea Army (KATUSA); Sergeant, Honorable Discharged (July 2022 - Jan 2024)

• Chungnam Samsung Academy High School
March 2017 − February 2020
Asan, Chungchungnam-do
Honor Diploma of Engineering and Bilingual Diploma
◦ Grand Prize (1st) awarded Paper in School Academic Research Conference for Engineering (2018)
◦ Student President of the CNSA Makers Club (2018 − 2019)

Research Interests

- **World Action Models(WAM)** for Robotic Learning and Planning
- **World Model**-based **Vision-Language-Action(VLA)** model Training for Robot Learning

Experiences

• Undergraduate Research Intern, Machine Learning Vision Group
July 2026 − August 2026
POSTECH
Internship Program
◦ Linear Algebra for Machine Learning Applications
◦ Reinforcement Learning Study Group

• Undergraduate Research Intern, Artificial Embodiment of Motion Intelligence Systems Laboratory
August 2025 −June 2026
Inha University
Team LAICA(Legged Adaptive Interaction for Cooperative Assistance)
◦ Personalized · Adaptive Quadruped Robot Control (Learning · Admittance Control based)
◦ Developed Robotic Platforms and Integrated Embedded Computing Environments
Internship Programs
◦ Mobile Manipulator(Deep Reinforcement Learning · World Model · Vision Language Action Model)
◦ State Estimation Benchmark (Particle Filter · Extended Kalman Filter)

• Undergraduate Research Intern, Robot Computer Vision Laboratory
May 2024 − March 2025
Inha University
RCV Formula, Team DAMVI (Dynamic Autonomous Mobility Vision Based, from INHA, F1tenth)
◦ 2D Lidar IMU Simultaneous Localization and Mapping (Pose Graph based)
◦ Dynamic Object Detection · Tracking (DBSCAN · Kalman Filter based)
◦ Developed Robotic Platforms and Integrated Embedded Computing Environments
◦ Visual Odometry with Multiple Monocular Cameras

Awards and Honors

• Can-Satellite Competition Korea (CANSAT) — *September 2018*
Excellence Prize (2th) — Ministry of Science and ICT, SaTReC, KAIST, KARI
- ◦ Aircraft Identification and Route Tracking by Doppler Effect with a Model Satellite
- ◦ Develop Model Satellites, Ground Station Program, Object-Tracking by Image Processing

• Dean's List — *2021 − 2025*, College of Software and Convergence, Inha University
Academic Excellence Award − 2021-1st/2nd and 2022-1st semester, 2024-2nd semester, 2025-2nd semester

• 2026 Convergence Project Achievement Presentation, Inha University — *June 19th, 2026*
Grand Prize(1st) — College of Engineering, Inha University
- ◦ Develop Robotic Guide Dog Platform, Design Tension-based Admittance Control
- ◦ Conduct Human-Robot Interaction Experiments for Dataset Collection

Scholarship

• Merit-based Academic Excellence Scholarship — *2021 − 2022, 2024 − 2025*, Inha University
2021-2nd semester, 2022-1st and -2nd semester, 2024-2nd semester, 2025-2nd semester

• Foreign Language, English, Excellence Scholarship — *2024*, Inha University
2024-2nd semester

Technical Skills

- **• Programming Language**: C/C++, Python, MATLAB
- **• Development**: ROS2, ROS1, Git, Docker, Gazebo, Mujoco, Auto Fusion

Language Skills

- **• English**: New TEPS(445), OPIC(Advanced Low)
- **• Korean**: Native

Published Papers

S Yang*, Minhyeong Lee*, H Lee*, Y Kim (September 2018), **"Aircraft Identification and Route Tracking using a Model Satellite",** 2018 KSAS Fall Conference, 431-434, JKSAS (KCI/SCOPUS Journal) **equally contributed*

Key Courses

• Artificial Intelligence: Deep Reinforcement Learning(CS 285), Machine Learning, Automotive Artificial Intelligence, Probability and Random Variable, Applied Linear Algebra, Object-Oriented Programing, Data structure

• Robotic Systems: Vehicle Vision System, Automatic Control, Robot Signal Processing, Vehicle Dynamics, High Performance Data Analysis, Communication System
